

Stacking chair.

The e-motion is a stylistic revolution in technology and an unbelievable synthesis about the theme of the chair in polypropylene with air-moulding, integrating an innovative device to the back that allows motion, unique in a product for this market and price. The result is a dynamic, light, comfortable, and strong product with a versatility that makes it very transversal, from corporate dining, training, waiting and conferencing to hospitality.

The combinations of colours, including the option of a faux-leather seat, and its shape make the e-motion aesthetically rich and suitable for dynamic environments. Stacking capacity 8 pieces on floor. Patent Model.
